

El Conquistador de Montañas *“The Conqueror of the Mountains”*

Our high performance, full suspension off-road tandem, El Conquistador de Montañas, is the culmination of Ventana’s superior design capabilities and skilled manufacturing execution, and is a work of beauty besides. To produce this trailblazing tandem we paired Ventana’s trademark rear suspension technology with an ultra-stiff mainframe. The vertically positioned rear shock contributes to El Conquistador’s stable platform and superior handling performance.

El Conquistador de Montañas is ready for captains and stokers to join forces and capture the mountain
